

Barez Tejarat Ryan Pars

Sourcing, sorting, packing and exporting agricultural products

Barez Tejarat Ryan Pars is a trading company engaged in sourcing, sorting, packing and exporting agricultural products. The company currently focuses on supplying Mazafati, Piarom and Rabbi dates to importers, distributors, wholesalers and brand owners.

Barez Tejarat coordinates sourcing, supervises sorting and packing, and prepares orders for shipment. The company is responsible for ensuring that products conform to the approved order specifications.

Private Joint Stock Company · Established February–March 2025 · Kerman, Iran

Registration No. 20811 · National Company ID: 14014262948

Supervision, documentation and shipment

Quality & services

Supervision & product conformity

Sorting and packing take place at approved facilities under the company's supervision, in accordance with hygiene requirements and under a technical supervisor. The date variety, sorting specifications, net weight and packaging type are checked against the approved order specifications.

Laboratory testing

Testing is performed according to the order and destination requirements in cooperation with the contracted laboratories Iranian Ghaza Azma and Marjan Khatam. Testing at other mutually agreed laboratories can also be arranged at the customer's request.

Export documents

The documents required for the order and destination are identified before order confirmation. The company coordinates certificates of origin, phytosanitary certificates, test reports and other agreed documents through the relevant authorities.

Batch traceability

Each packing batch is linked to sourcing and quality-control records by a batch number. Customers can request a follow-up or investigation of a discrepancy by providing the order number, batch number and relevant documents.

Customer inspection

The customer, their representative or their chosen inspection company may inspect the agreed stages. The timing and scope of inspection are coordinated in advance.

Transport & shipment

At the customer's request, the company coordinates transport and shipment in accordance with the delivery terms specified in the pro forma invoice and contract.

Company permits & documents

Export date-packing permit · Active commercial card

Our Iranian date range

Products & packaging

Mazafati

Fresh dates from Bam

Premium: 500 and 550 g

Luxury: 300, 325, 600 and 650 g

Piarom

Semi-dry; custom weights and packaging

Rabbi

Semi-dry; 250, 500, 750 and 1,000 g

All listed weights are net product weights.

Mazafati dates require a maintained cold chain during storage and transport.

Packaging tailored to your order

Natasa brand

Supplied under the Natasa brand at the selected net weight.

Your private label

The pack type, net weight and label information for your brand are approved before packing.

Bulk supply

Supply for wholesale or repacking, in agreed quantities and to agreed specifications.

Mazafati packaging example; the final label is determined by the order.

From inquiry to shipment

Cooperation & contact

Minimum export order: one container

To receive a commercial offer, specify the date variety, order quantity, net weight per pack, brand and destination. You may also request samples, product specifications or company documents with your inquiry.

01 Specifications & sample

Technical specifications or a reference sample, packaging, storage conditions and shelf life are reviewed and approved before ordering.

02 Commercial offer

Available quantity, preparation time, price, payment terms and delivery terms are quoted according to the date variety, availability and packaging.

03 Pro forma invoice & contract

Final product specifications, quantity, preparation time, required documents and each party's obligations are recorded in the pro forma invoice and contract.

04 Preparation & shipment

Products are sourced, sorted and packed. Inspection, loading and shipment are carried out according to the agreed terms.
